#### PRODUCT INFORMATION

Case UPC 30358 2/110 ct. starter kit

Case UPC 30359 2/110 ct. refill pouch

### Designed for environmental services

This 12" x 12", 110-count bucket refill system was designed with the environmental services professional in mind. The larger wipe allows you to cover more area with less effort during your cleaning and disinfecting activities. And the sturdy reusable bucket and refill pouch combo provides quick, convenient wipe replenishment and easy cart transportation.

Clorox® brand Germicidal Wipes are heavier and stronger than most bleach wipes on the market today. Our durable wipe and surfactant work together with the user's wiping motion to quickly remove dirt while disinfecting.

### Ready-to-use, hospital-grade disinfectant

Clorox® brand Germicidal Wipes meet AOAC International's efficacy testing for hospital disinfection and meet OSHA bloodborne pathogen standards. These wipes also exceed the Centers for Disease Control and Prevention (CDC) recommended dilution for bleach disinfection in a ready-to-use form. Clorox® brand Germicidal Wipes provide fast, confident, convenient disinfecting with every application.\*

### Registered by the EPA and in all 50 states

Clorox® brand Germicidal Wipes are an EPA-registered disinfectant and meet the criteria for product efficacy, usage safety, shelf life, label strength, processing and raw materials. Add confidence to your disinfecting regimen by ensuring your wipes adhere to these rigorous criteria.

### Saves time, prevents formulation errors

Clorox® brand Germicidal Wipes come presaturated with dilute Clorox® bleach at 0.55% (5,500 ppm) — no mixing required. Eliminating do-it-yourself formula mixing not only saves time but also ensures the right amount of solution at the right concentration every time.

### Includes odor-masking agent

Clorox® brand Germicidal Wipes are specially formulated to provide fast, effective disinfecting with a hint of fragrance and only a slight bleach scent to accommodate the most sensitive environments and users.

### Includes corrosion inhibitor, safe to use on most nonporous surfaces

Clorox® brand Germicidal Wipes contain an anticorrosion agent and, when used as directed, this product is safe to use on most hard, nonporous surfaces, including stainless steel, plastics, glazed ceramics and porcelain. Use Clorox® brand Germicidal Wipes to clean and disinfect bedrails, countertops, equipment surfaces and mobile devices such as IV stands, carts, BP monitors and glucometers\*.

#### PRODUCT INFORMATION

Case UPC 35309 6/70 ct.  
Case UPC 01584 6/50 ct.

### Ready-to-use hospital-grade disinfectant

Clorox® brand Germicidal Wipes meet AOAC International's efficacy testing for hospital disinfection and meet OSHA bloodborne pathogen standards. These wipes also exceed the Centers for Disease Control and Prevention (CDC) recommended dilution for bleach disinfection in a ready-to-use form. Clorox® brand Germicidal Wipes provide fast, confident, convenient disinfecting with every application.\*

### Registered by the EPA and in all 50 states

Clorox® brand Germicidal Wipes comply with EPA standards for product efficacy, usage safety, shelf life, label strength, processing and raw materials. Add confidence to your disinfecting regimen by ensuring your wipes adhere to these rigorous standards.

### Contains the power of Clorox® bleach†

Clorox® brand Germicidal Wipes contain 0.55% (5,500 ppm) sodium hypochlorite, which exceeds the CDC-recommended 5,000 ppm sodium hypochlorite required to kill many of the pathogens of most concern to hospitals.

### Includes odor masking agent

Clorox® brand Germicidal Wipes are specially formulated to provide fast, effective disinfecting while creating only a slight bleach scent to accommodate the most sensitive environments and users.

### Includes corrosion inhibitor, safe to use on most nonporous surfaces

Clorox® brand Germicidal Wipes contain an anticorrosion agent and, when used as directed, this product is safe to use on a variety of hard, nonporous surfaces, including stainless steel. Use Clorox® brand Germicidal Wipes to clean and disinfect bedrails, countertops, equipment surfaces and mobile devices such as IV stands, carts, BP monitors and glucometers.

### Extra-strong material and surfactants promote powerful cleaning

Not all bleach wipes are created equal. Clorox® brand Germicidal Wipes are heavier and stronger than most bleach wipes on the market today. Our durable wipe and surfactant work together with the user's wiping motion to quickly remove dirt and eliminate spills while disinfecting.

### 35 Kill Claims

#### PRODUCT INFORMATION

Case UPC 02490 6/96 oz.  
Case UPC 02489 3/182 oz.

### Registered by the EPA and in all 50 states

Ultra Clorox® Germicidal Bleach complies with EPA standards for product efficacy, usage safety, shelf life, label strength, processing and raw materials. Add confidence to your disinfecting regimen by ensuring your bleach adheres to these rigorous standards.

### More concentrated

At 6.15% sodium hypochlorite, Ultra Clorox® Germicidal Bleach is more concentrated than many bleach products on the market. Using the Centers for Disease Control and Prevention-recommended dilution ratio of 1:10, Ultra Clorox® Germicidal Bleach exceeds the 5,000 ppm required to kill many of the pathogens of most concern to hospitals.

### Safe to use on most nonporous surfaces

Use Ultra Clorox® Germicidal Bleach with confidence to clean and disinfect large surfaces such as exam tables, floors and hallways, as well as bedrails, tables, equipment surfaces and mobile devices such as IV stands, BP monitors, carts and glucometers.\*

### Effective cleaning

Ultra Clorox® Germicidal Bleach is excellent for controlling mold and mildew in bathrooms, germ-prone surfaces and laboratories. Our product complies with OSHA guidelines for bloodborne pathogens and meets FDA guidelines for sanitizing food contact surfaces.

### Long shelf life

Not all bleach products are created equal. Our higher concentration and super-filtration processes ensure long shelf life so you can trust Clorox® bleach to be pure and effective.

### Environmental sustainability

Clorox does not use the mercury cell process in the manufacture of sodium hydroxide, which eliminates a source of mercury contaminants found in some bleach products. After use, 95 percent to 98 percent of bleach rapidly breaks down back into salt and water. Any residuals continue to convert to salt through natural degradation.
