

Hydrogen Peroxide Cleaner Disinfectant Portfolio

Ready-to-use one-step cleaner disinfectant wipes and spray

The Fastest Non-Bleach Contact Times Available*

The fastest non-bleach contact times in a portfolio formulated for patient and staff comfort

A full breadth of ready-to-use disinfectants engineered with a patented activated hydrogen peroxide formula — for the speed your job requires and the excellent product aesthetics you want on a daily basis.

- **Speed:** The fastest non-bleach contact times available
- **Compliance:** Can meet all bacteria and virus contact times with one wipe
- **Value:** Covers greater surface area with fewer wipes, versus PDI® Super Sani-Cloth® and CaviWipes™
- **Excellent Product Aesthetics:** Light, naturally occurring scent for patient and staff comfort; designed for use on a broad range of healthcare surfaces

Speed: The fastest non-bleach contact times on the most important pathogens

- 30-second to 1 minute contact times on 32 bacteria and viruses
- Up to 4x shorter contact times than PDI® Super Sani-Cloth® wipes
- More EPA-registered kill claims for antibiotic-resistant organisms than PDI® Super Sani-Cloth® wipes and CaviWipes™ combined

	Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes	PDI® Super Sani-Cloth® Wipes	CaviWipes™
Bacteria	30 seconds - 1 minute	2 minutes	2-3 minutes
Viruses, except Norovirus	30 seconds - 1 minute	2 minutes	2 minutes
Note: Norovirus contact time	3 minutes	NO	NO
Antibiotic-resistant organism kill claims	9	3	3
Total kill claims	36	26	14

*Based on 30-second bacteria and virus contact times for disinfecting on Federal master labels of leading healthcare wipes as of 10/1/11. Use as directed on hard, nonporous surfaces.

Why speed matters

If your wipe cannot keep a surface wet for its entire contact time, it can cause costly rewiping or — if the surface is not rewiped — leave the surface not disinfected. Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes meet all bacteria and virus contact times with one wipe, helping your team ensure compliance for better patient outcomes. You should not have to worry if your team is using a second wipe to be compliant.

Compliance: Keeps surfaces wet for all bacteria and virus contact times

	6.75"x 5.75" Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes	6.75"x 9" Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes	6"x 6.75" PDI® Super Sani-Cloth® Wipes	6"x 6.75" CaviWipes™
Time one wipe keeps a 4ft² surface wet	4 minutes 10 seconds	4 minutes 27 seconds	1 minute 25 seconds	1 minute 38 seconds
% of bacteria and virus contact times that one wipe can meet	100%	100%	0%	0%

Better Value: Disinfect more surface area using fewer wipes

	6.75"x 5.75" Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes	6.75"x 9" Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Wipes	6"x 6.75" PDI® Super Sani-Cloth® Wipes	6"x 6.75" CaviWipes™
Wipes required to disinfect surfaces in average size hospital room (50 ft²) for comparable bacteria and virus contact times	4	3	20	24

Ready-to-Use Spray: Powerful cleaning and the fastest contact times since bleach*

- 30-second to 1 minute contact times on all bacteria and viruses
- Up to 6x faster bacteria contact times than Virex® TB
- Up to 20x faster bacteria contact times than Virex® II 256 Dilutable
- One-step cleaning and disinfecting
- Cleans bathroom soil 214% (or 3x) faster than Virex® TB
- Cleans bathroom soil 36% faster than Cavicide™

	Clorox Healthcare™ Hydrogen Peroxide Cleaner Disinfectant Spray	Virex® TB Spray	Cavicide™	Virex® II 256 Dilutable
Bacteria	30 seconds - 1 minute	3 minutes	3 minutes	10 minutes
Viruses	30 seconds - 1 minute	30 seconds - 10 minutes	2 minutes	1-10 minutes
EPA-registered to kill Norovirus?	Yes	Yes	No	No

*Based on 30-second bacteria and virus contact times for disinfecting on Federal master labels of leading non-bleach sprays as of 10/1/11.

Excellent product aesthetics:

- For use in the most sensitive patient areas
- No harsh chemical odor or fumes
- Light, naturally occurring fragrance
- Nonflammable, unlike quaternary-ammonium-alcohol-based wipes
- No volatile organic compounds (VOCs)

Broad healthcare surface compatibility:

- Noncorrosive: does not leave a solid residue that can damage your equipment over time
- CHP is recommended for plastics, laminated surfaces, sealed fiberglass and other acrylic-coated surfaces, whereas isopropyl alcohol will attack some forms of plastic, rubber and coatings*

Surface materials: Stainless steel, vinyl, painted metals, glass, baked enamel, chrome, glazed tile, glazed ceramic, glazed porcelain, porcelain enamel, laminated surfaces, painted surfaces, plastic, sealed fiberglass.

Strong and durable wipes

For powerful cleaning and greater durability:

- 4x stronger than PDI® Super Sani-Cloth® wipes
- 3.5x stronger than CaviWipes™

A complete ready-to-use portfolio for every need and job:

A full selection of ready-to-use activated hydrogen peroxide products for everyday disinfecting throughout your facility. Includes two economical refill packages for cost and waste efficiencies.

CLINICAL SURFACES

6.75" x 5.75"

Designed for: Nurses

Perfect for: Medical equipment and small surfaces disinfecting

Small Equipment Surfaces:

Including glucometers, BP monitors, IV pumps, stethoscopes, nurse call cords

MULTIPURPOSE

6.75" x 9"

Designed for: Nurses and Environmental Services

Perfect for: Everyday cleaning and disinfecting, daily patient room cleaning, high-touch surfaces

High-Touch Surfaces:

Carts, wheelchairs, countertops, desktops, light switches, TV remotes, bed rails, overbed tables, dialysis machines

TERMINAL CLEANING

12" x 11"

Designed for: Environmental Services

Perfect for: Terminal cleaning and disinfecting

Large Surfaces:

Patient bed area, counters, windowsills, table tops, patient chairs, air vents, toilets, showers, sinks

MULTIUSE

32 oz. & 128 oz.

Designed for: Environmental Services

Perfect for: Multipurpose use

High-Touch Surfaces:

Bathrooms, toilets
