

NoBubbles Defoamer

Instant & Biodegradable Defoamer

This instant and biodegradable defoamer destroys messy and annoying bubbles and foam on contact. Specially engineered for demanding and tough industrial and custodial use, we 100% guarantee this product will safely clobber any bubble and foam on the planet.

DIRECTIONS

Read entire container label before using this product.

1. For most all defoaming needs, only 20-200 ppm of this product is needed. About ½ oz./gallon of water or 28 mL/Liter. Add more product as needed.
2. For carpet extraction purposes. It is recommended that product be added to receiving tank to defoam wash solution.

APPLICATIONS

- Carpet extraction machines
- Auto scrubbers
- Areas where excessive foam and bubbles are a problem

BENEFITS

- Instantly destroys foam on contact
- Biodegradable
- Fortified with silicone
- Effective in 20-200 ppm use level range

Dilution	2.5 oz./5 gal.
Density	8.35
Viscosity	100-300 cps

Hope.

There is no greater power on this planet than the hope and will of the mother. We mothers do it all. Often it's without a "Thanks Mom!". We also do our share of worrying. Worrying that our kids are happy and have educational opportunities to achieve their dreams. That is our greatest legacy in teaching our kids to never... never...ever...lose hope.

Education.

PuroAzul understands the power of Hope and Education. That's why every time you purchase any of our products, we will provide well-needed money to your kid's local school. Just clip the coupon on this label and follow the rules and instructions at www.Cash4KidsEducation.org. And ... thanks Mom!
