

St. Will's Polish Precious Metals

This metal polish effectively cleans, brightens, polishes and protects fine metals. Quickly removes tarnish, metal oxides, fingerprints, and other soils. Coats metal with a protective seal to enhance and protect the surface. Recommended for use on all hand-cleaned metals including sterling silver, stainless steel, brass, copper, gold, bronze and other soft metals.

DIRECTIONS

Read entire container label before using this product.

- This product is ready to use. Do not add water.
Always test product in an inconspicuous area before use.
- Pour a small amount of polish onto a soft cloth then apply directly to surface.
 - Spread quickly and polish continuously until dry.

For most effective results, use two dry, lint-free cloths, one for application and initial cleaning followed by a second clean cloth for final polishing and buffing.

APPLICATIONS

Metal Polish and Sealer

Hope.

There is no greater power on this planet than the hope and will of the mother. We mothers do it all. Often it's without a "Thanks Mom!". We also do our share of worrying. Worrying that our kids are happy and have educational opportunities to achieve their dreams. That is our greatest legacy in teaching our kids to never... never...ever...lose hope.

Education.

PuroAzul understands the power of Hope and Education. That's why every time you purchase any of our products, we will provide well-needed money to your kid's local school. Just clip the coupon on this label and follow the rules and instructions at www.Cash4KidsEducation.org. And ... thanks Mom!
